Giving you peace of mind for a high quality, high performing product manufactured by a diversified market leader.

Hyundai
#75
World's Most Valuable Brand

2 HYUNDAI IS BANKABLE

Since 1972 Hyundai have been one of the most trusted names in the heavy industries sector. Due to continual production of high performing products at competitive rates and phenomenal after sales service. Commercial and EPC projects around the world choose Hyundai as they enable a secure and high returning investment. Giving you peace of mind for a high quality, high performing product manufactured by a diversified market leader.

3 LEADERS IN MANUFACTURING

Hyundai utilise superior production processes compared to standard PV manufacturing. Hyundai's unique 'Material Lifetime Control System' ensure Hyundai PV modules perform in even the harshest, salt, desert or sunny regions, perfect for Australian conditions.

Hyundai make every Hyundai solar cell that goes into every Hyundai panel. This ensures high level of quality control throughout the manufacturing process. Many common panel failures are as a result of inferior quality materials used. Hyundai failure rates are exceptionally low, which increases the security of your solar investment.

International testing labs VDE and UL have certified Hyundai to do a large proportion of quality assurance testing and test preparation in-house.

4 ABOVE STANDARD WARRANTY

Hyundai is one of the only panel manufacturers to offer a 30 year performance warranty.

30 YEAR PERFORMANCE WARRANTY

- PV panel performance warranty
- Company lifespan
